EDUCATION

University of California, Los Angeles — Los Angeles, CA
B.S. Mathematics of Computation, Musicology minor — Expected Graduation: 2029

EXPERIENCES

Algorithm Design Team Leader — Los Angeles, CA
Art.Ificial at UCLA — Oct. 2026 - Present

- Lead the algorithms team in developing an algorithm to track changes across different sheet music versions on Musescore using XML files and Python; project is currently in early-stage design and development
- Design the algorithm's logic to identify modifications between versions, compare versions, and support merging versions together
- Collaborate with team members on task assignments and technical approach discussions
- Apply music theory knowledge to the algorithm design to handle sheet-music-specific structure more accurately

Music AI Data Annotator — (Remote) Shenzhen, China
SoundWave Lab — Jul. 2026 - Oct. 2026

- Annotated around 500 music files per week for AI training, with tasks involving genre classification, instrumentation, musical structure analysis, and audio quality evaluation.
- Worked with AI prompts and evaluated the characteristic of different existing musical AI models.
- Communicated with project managers to clarify uncertain classifications and ensure annotations followed task-specific guidelines.

Film Music Composition & Digital Audio Workflow Internship — HongKong, SAR
iZMusiz — Jun. 2024 - Jul. 2024

- Composed and arranged original film soundtrack material for a Cantonese film project in a professional production setting
- Applied film scoring techniques using digital audio workstations including Logic Pro and FL Studio
- Created and edited musical material using MIDI keyboards and DAW-based production workflows
- Collaborated with a music producer (Isaac Chong) throughout the composition and production process

PROJECTS

Text Analysis Project
Python, Matplotlib, pandas

- Implemented Python code to run textual analysis between chat histories, incorporating Matplotlibs for graphical visualization and pandas for appendix organization
- Analysis results were organized into a short academic research paper, following the IEEE format and guidelines
- Source code and final results presented using GitHub

Independent Music Arranger and Transcriber
SoundWave Lab

- Accumulated five years of experience in music arrangement and transcription, covering diverse genres for various instrumentations.
- Publish and share selected works on platforms; single most-viewed work with 1900+ views and 39 saves.
- Arrangement performed by high-school ensembles and the UCLA Con Brio String Orchestra.

SKILLS

Technical: Java / Python / C++ / JavaScript / HTML&CSS / Calculus / Music Theory
Language: English (Native/Bilingual) / Mandarin Chinese (Native/Bilingual) / Spanish (Professional Working Proficiency
